SECTION I A:

A Biometric Fingerprint Student Attendance Management System by S. S. Tenuche, B. Elisha, M. A. Umar, B. I. Ahmad, and A. A. Sambo 1 - 6

Adoption of Expert Systems in Nigerian Tertiary Institutions; Benefits, Issues and Challenges by Chigozie-Okwum Chioma Chinyere, Osuo-Genseleke Macarthy, and Ugboaja Samuel 7 - 12

A Conceptual Framework for Augmenting the Security of Digitized Academic Records in Nigerian Tertiary Institutions using Blockchain Technology by Ayei E. Ibor, Ofem A. Ofem, and Julius N. Obidinnu 13 – 19

e-Learning Management System (e-LMS): A Comparative Analysis of Socio-Demographic Differences by Mukhtar Abubakar, Haruna Abdu, Mahammad Muntasir Yakubu, and Suleiman Mohammad Mammam 20 – 27

Analysing Some Factors Hindering E-Learning Adoption in Developing Nations: Acceptability Perspective by Ibrahim Abdullahi, Usman M. Gana, Abdulganiyu Abdulrahman, and Fatima Binta Adamu. 28 – 32

Design of A Harmony Search Algorithm Based on Covering Array T-Way Testing Strategy by Abubakar Aminu Muazu and Aminu Aminu Muazu

SECTION I B:

Semantic Web Based ST Algorithm Framework for Diagnosing and Monitoring of Breast Cancer on an Intelligent Personal Agent (IPA) by O. N. Oyelade, A. A. Obiniyi, and S. B. Junaidu 39 – 44

IoT-Aware Hybrid Intelligent Safety-Driven Vehicle-Pedestrian Traffic Control: Conceptual Framework by M. B. Soroyewun, A. A. Obiniyi, S. B. Junaidu, and E. A. Adedokun 45 – 54

Diagnosing of Bleeding in Late Pregnancy: A Medical Expert System Approach Using Nlp–Based Input Generating Model by Adelaiye S. M., and A. A. Obiniyi 55 – 59

Empirical Evaluation of KNN Classifier Using Various K-Values by Obunadike Georgina N., Joushua Abah, and Dima R. M. 60 – 63

A Framework for Quality Evaluation of Tools in Software Product Lines by Muhammad Garba and Muhammad Sirajo Aliyu 64 – 68

A Performance Evaluation of the New Improved Round Robin (NIRR) CPU Scheduling Algorithm Using Normal and Exponential Statistical Distributions by Abdulrazaq Abdulrahim, Saleh E. Abdullahi, Sahalu B. Junaidu, and Mohammed Y. Tanko 69 – 74

SECTION II A:

Ontology for Risk Management in Software Project by Bakare K. Ayeni, and Abdullahi Hadiza. Isa 75 – 80

Improving Network Lifetime of Mobile Adhoc Network using Modified LAR by Aliyu D. Usman, S. M. Sani, Y.A Mshellia, and Agbon E. Ezekiel 81 – 86

An Efficient Framework for a Secured Internet of Things Architecture by Adigun Maria F, Orunsolu Abdul A, Sodiya Adesina S and Babalola Yetunde E. 87 – 94

Surrogate Safety Assessment of Crosswalks Incorporated Intersection by O. M. Olanrewaju, S.B. Junaidu, and A. A. Obiniyi 95 – 101

An Enhanced Mobile Payment Security Scheme (EMPS) Using ECC Over Binary Field (F2m) And IMEI by 1T. M. Okediran, O. R. Vincent, A. Abayomi-Alli, and O. J. Adeniran 102 – 107

One-Parameter-At-A-Time Combinatorial Testing Strategy Based on Harmony Search Algorithm Supporting Mixed Covering Array Mathematical Notation (OPATHS) by Aminu Aminu Muazu and Abubakar Aminu Muazu. 108 – 113

SECTION II B:

Privacy Protection and Collusion Avoidance Solution for Cloud Computing Users by Maria M. Abur, Sahalu B. Junaidu, Afolayan A. Obiniyi and Saleh E. Abdullahi 114 – 121

An Event Management System for Detecting Brute Force Attack by Adebukola S. Onashoga, Odewale O. Oreolorun, Oluwatoyin E. Adeleye, and Adedoyin A. Babablola 122 – 128

Enhanced Model for Computer Viruses Counter Measures by D.D. Wisdom, A. Y. Tambuwal, P.B. Chun H. K. Adamu, and E. A. Ajayi 129 – 135

Performance Analysis of Classification Algorithms for Distributed Denial of Service Attacks Detection in a Distributed Network Environment by Olawale S. Adebayo, Moses Noel, Abdulmutalib Abdullahi, and Shafi'i Muhammad Abdulhamid. 136 – 140

An Intelligent Incidence Reporting System for Online Attacks by Monsuru O. Abdullahi, Adesina S. Sodiya, Adebukola S. Onashoga, and C. O. Tinubu. 141 – 151

SECTION III A:

A Cognitive Optimisation for Advertisement Using Particle Swarm Optimization by Joachim S. Arogundade, Latifat A. Odeniyi and Olufunke R. Vincent 152 – 160

Performance comparison of two Decision tree algorithms based on splitting criteria for predicting child birth delivery type by S. Aliyu, H. Musa, and F. Jauro 161 – 165

A Modified Energy Efficient Multi-Hop Routing Protocol in Wireless Sensor Networks by A. D. Usman, F. S. Dadah, and S. M. Sani 166 – 171

Discriminating Features for Characterization of Human Skin by Emmanuel, Jadesola Adejoke, Akintola, and Kolawole Gabriel 172 – 176

Modified Extended Conflict Based Search Algorithm for Convoy Movement Problem by O. Ajayi, M.B Muazu, E.A Adedokun, Y.A Shaaban4 and A.T Salawudeen 177 – 184

SECTION III B:

Development of a Standalone Photovoltaic Design and Sizing Software by M. A. Sanoh, A. T. Salawudeen, B. Jimoh, S. M. Yusuf, A. B. Kunya 185 – 188

Development of a Wearable Air Conditioner Control System by S. M. Yusuf, Y. Ibrahim, M. O. Momoh, M. Surajo 189 – 193

Big Data Mining activities from Multiple Smart Houses for Healthcare Applications by Bakare K. Ayeni, Abdulsalam A. Jamilu 194 – 203

Comparative Study of AODV, DSR AND DSDV Routing Protocols in MANET by S. M. Mubarak, A. A. Obiniyi, and S. Aliyu 204 – 208

Statistical Significance Testing for Banded Patterns Using Gaussian distribution by Fatimah Binta Abdullahi, and Frans Coenen 209 – 219

The Academia in Information Technology (AIT) Profession: an interest group of Nigeria Computer Society (NCS) welcomes all of you to her first International Conference with the theme ***IT for Promotion of Quality Education, Research and Local Content Development.***

Academia in Information Technology Profession (AITP) is an umbrella body for all academia in information technology and related fields in Colleges of Education, Polytechnics and Universities. The focus of AITP is to provide, promote, and sustain leading role expected of the academia in computer art, science, and technology including telecommunication science and technology based on adoption of best practices for the benefit of our country, Nigeria. The body's interest is to serve as the collective voice and power of the academia in Computer Science and Technology and related Technologies by interacting with the public and private sectors including government at all levels on all matters directly or indirectly affecting the academia. Furthermore, the group is poised to advance Computer Science, Information and Communication Technologies with their applications and deployment to professional practice in education at all levels.

We thank the authority of Baze University Abuja for hosting the conference with their beautiful University edifice free of charge. It takes a University with foresight and love for education to make their resources available for a maiden conference of this nature. However, the Vice Chancellor, Prof. Tahir Mamman (OON, SAN); the registrar, Mal. Idris Inuwa; the Dean of Faculty of Computing and Applied Sciences, Prof. Peter Ogedebe and the Director, IT, Dr. Rislan Kanya worked assiduously for the success of the conference. We are very grateful.

The ITED conference is a collaborative research and practice forum that seeks to explore how new, innovative and emerging forms of technologies can aid research, practices and development in Information Technology profession. We believe that your participation will enrich the diversity of perspectives and contents to be presented and that your invaluable experience, insight and contributions will add to what is potentially a very important gathering of pragmatic practitioners and IT professionals.
The conference organizer is highly grateful to our national and international guests and lead paper presenters for accepting to be part of this maiden international conference.

We thank the Vice President of the Federal Republic of Nigeria, the Honourable Minister of Education, Honourable Minister of Communication and Honourable Minister of the Federal Capital Territory for sending representative to attend the Conference.

We register our profound appreciation to Nigeria computer Society (NCS), Computer Professionals (Registration Council of Nigeria) [CPN] and the Provost College of Fellows for the roles they played in making this conference a success. Let me register our thanks to our partners – National Information Technology Development Agency (NITDA), National University Commission (NUC), National Communication Commission (NCC), National Board for Technical Education (NBTE), National Board for Colleges of Education(NCCE), Petroleum Technology Development Fund (PTDF), Tertiary Education Trust Fund (TETFund) and National Teachers' Institute, International Business Machine (IBM) for their supports. We are also very grateful to Prof. Stella Chiemeke (The Rector, Delta state Polytechnic, Ugwashi – Uku, and Mr. Mike Olajide (The General Manager, Sidmach Technologies Nigeria Limited) for their moral and financial support.

We are indebted to extend our profound thanks to the following dignatories: Prof. Iya Abubakar, Most Rev. (Prof.) A. D. Akinde and Dr. Monisoye Sola Afolabi for their unflinching support.

Our Local organizing committee (LOC) did an incredible job in which writing in words are not enough to appreciate them. The twenty-two (22) member local organizing committee (LOC) headed my Prof. Adesina Sodiya with Mr. Ebenezar Ajayi as the Secretary, worked round the clock. We cannot forget the immense work done by LOC members based in Baze University who are Prof. Peter Ogedebe and Dr. Rislan Kanya, indeed, all the LOC members did credibly well. We are grateful. My heart-felt appreciation to all the reviewers who made it possible for us to have many quality papers for presentation and deliberation at this Conference.

I must not forget the support of National Executive Council members and the Zonal Executive Members of the Academia in Information Technology Profession for their unwavering support and cooperation to make the conference a success.

I am grateful to you all. God bless you.

Prof. A. A. Obiniyi MAIT, MITSSP, MISOC, FIMC, FNCS, CITP
President, Academia in Information Technology Profession
